Digi-Seat Seating System

Custom Foam Carve seating

The new SOS Digi-Seat uses the latest foam carve and 3D scanning technology to deliver a lighter, softer and more supportive seating system.

The SOS Digi-Seat offers a new option for children, adults and the elderly with complex postures. The Digi-Seat consists of a custom carved seat assembly.

Each component is produced using 3D scanning techniques for accuracy and comfort.

Key features:

Available for all ages

Digi-Seat seating is suitable for all ages from very small children to adults and the elderly.

Created using the latest Digital Seating Technology

SOS Foam Carve Seating is created using the latest in 3D scanning and manufacturing technology offering improvements over traditional seating.

Lighter, softer and more supportive

SOS Digi-Seat seating uses a soft but supportive polyurethane foam for maximum comfort. Additional higher grade foam materials can be incorporated into each seat unit to meet specific needs of each individual client.

Removable covers for easy cleaning

A range of seat cover fabrics are available from high quality materials and can be easily removed for cleaning. Available in a range of colours.

Range of accessories available

Available with a range of foot supports and headrests.

Made with the latest in 3D scanning and Robotic manufacturing techniques

Comprehensive range of belts and harnesses available.
